## PREFACE

This booklet was compiled to help all Americans understand the duplicity of our government and the legal system that was implemented - by stealth - by the American BAR Association on behalf of the international bankers, a.k.a. the privately owned Federal Reserve.

Attorney and former law professor Melvin Stamper was so incensed by his discoveries when he researched the Judiciary; the Internal Revenue Service; the Federal Reserve Bank, Inc.; the Bureau of Alcohol, Tobacco and Firearms; offices of the Secretary of the Treasury and State; as well as the President and the Congress that he wrote an amazing book, *Fruit From a Poisonous Tree*. In his first chapter he repudiated his US citizenship.

The strategy explained in this booklet for dealing with our out of control government and its deceptive legal system, a Notice of Condition Precedent, came from researchers Joyce Rosenwald and Peter Neise. Joyce died in 2011 but Peter is very much alive and well and his counsel was invaluable in the development of this tactic.

## YOUR CHARACTER

The United States is a "Federal corporation". [See 28 U. S. Code § 3002]  
This is not an opinion, it is an important unavoidable FACT!

The U.S. President is the CEO of the "Federal corporation". On August 10, 1999, CEO Bill Clinton signed Executive Order 13132 - Federalism. Section 2 states:

*“(d) The people of the States are free, subject only to restrictions in the Constitution itself or in constitutionally authorized Acts of Congress, to define the **moral, political, and legal** character of their lives.”*

According to the legal dictionary of thefreedictionary.com [1] character means:

*character (An individual), noun being, body, figure, human, human being, man, mortal, party, person, personage, personality, self-determined being, somebody, someone*

### **Moral Character**

One key to defining one's moral character can be whether or not one fulfills his/her obligations or lives up to his/her promises or oaths. An honorable and moral man or woman does both. However, there is one ethnic group that secretly says a prayer - called the Kol Nidre - each year releasing themselves from their future obligations or oaths. They choose to define their character as amoral.

*"All vows we are likely to make, all oaths and pledges we are likely to take between this Yom Kippur and the next Yom Kippur, we publicly renounce. Let them all be relinquished and abandoned, null and void, neither firm nor established. Let our vows, pledges and oaths be considered neither vows nor pledges nor oaths". [2]*

### **Political Character**

The key to defining your political character can be found in 28 US Code § 1746. Essentially our choices are 1) without the United States corporation jurisdiction or 2) within the United States corporation jurisdiction, also known as a United States Citizen.

28 US Code § 1746:

*Wherever, under any law of the United States or under any rule, regulation, order, or requirement made pursuant to law, any matter is required or permitted to be supported, evidenced, established, or proved by the sworn declaration, verification, certificate, statement, oath, or affidavit, in writing of the person making the same (other than a deposition, or an oath of office, or an oath required to be taken before a specified official other than a notary public), such matter may, with like force and effect, be supported, evidenced, established, or proved by the unsworn declaration, certificate, verification, or statement, in writing of such person which is subscribed by him, as true under penalty of perjury, and dated, in substantially the following form:*

*(1) If executed without the United States: "I declare (or certify, verify, or state) under penalty of perjury under the laws of the United States of America that the foregoing is true and correct. Executed on (date). (Signature)".*

*(2) If executed within the United States, its territories, possessions, or commonwealths: "I declare (or certify, verify, or state) under penalty of perjury that the foregoing is true and correct. Executed on (date). (Signature)".*

## **Legal Character**

The key to defining your legal character is the word "person". Regulations created by government agencies and statutes and/or ordinances passed by elected legislators are all written for legal "persons". Therefore it is crucial that we understand what a "person" is and what it is not. Here are their legal definitions:

**Federal Register Act** [of the UNITED STATES] (1935)  
<https://www.archives.gov/federal-register/laws/federal-register/1501.html>

*"person" means an individual, partnership, association, or corporation (4 artificially created legal entities - not one a living being!)*

**California statutes:**

Government code Section 1-26

17. "Person" includes any person, firm, association, organization, partnership, limited liability company, business trust, corporation, or company (9 artificially created legal entities - not one a living being!)

**Ohio statutes:**

Statutory definitions 1.59

(C) "Person" includes an individual, corporation, business trust, estate, trust, partnership, and association (7 artificially created legal entities - not one a living being!)

**UCC Article 1 - General Provisions**

Sec 1-201 General Definitions

(27) "Person" means an individual, corporation, business trust, estate, trust, partnership, limited liability company, association, joint venture, government, governmental subdivision, agency, or instrumentality, public corporation, or any other legal or commercial entity. (14 artificially created legally created entities - not one a living being!)

Legal "persons" are not flesh and blood living men and women.

Proof that our laws/statutes are written for legal fiction "persons" and corporations - not for flesh and blood living men and women - can also be found in the legal process by which courts interpret and apply statutory legislation. Sometimes statutes have straightforward meanings, but in many cases, there is some ambiguity or vagueness in the verbiage that must be resolved by a judge. To interpret applicability, judges use various tools and methods, including traditional canons. The judiciary may apply rules of interpretation both to legislation enacted by the legislature and to delegated-legislation such as administrative agency regulations.

Here are three prominent rules considered by judges when they interpret the applicability of statutes/rules:

**1) ejusdem generis** - rules only apply to persons or things of the same kind or class.

<http://thelawdictionary.org/ejusdem-generis/>

*Of the same kind, class, or nature. In statutory construction, the "ejusdem generis rule" is that where general words follow an enumeration of persons or things, by words of a particular and specific meaning, such general words are not to be construed in their widest extent, but are to be held as applying only to persons or things of the same general kind or class as those specifically mentioned.*

**2) *expressio unius est exclusio alterius*** - one thing having been mentioned, the other is excluded

<http://legal-dictionary.thefreedictionary.com/expressio+unius+est+exclusio+alterius>

*Is a rule of construction, applying both to statute and legal writings, that states that one thing having been mentioned the other is excluded. Thus, following this rule, 'no dogs allowed' means that lions are allowed but guide dogs are excluded.*

**3) *noscitur a sociis*** - meaning understood from accompanying words

<http://legal-dictionary.thefreedictionary.com/noscitur+a+sociis>

*Means comprehended from accompanying words, perceived from accompanying words, realized from accompanying words, recognized from accompanying words, understood from accompanying words*

If any or all of these rules are applied to federal regulations, state statutes and the Uniform Commercial Code, it becomes even more apparent that they are not written for living men and women.

In America the states have authority over relevant matters in their respective jurisdictions, unless the state's definitions of their statutes conflicts with those recognized federally. This explains why both California and Ohio define "persons" almost identically with the Federal Register and the Uniform Commercial Code.

While the term "character" includes both men and persons, the way the term "person" is used in statutes - preceding a list of non-living legal entities - precludes it from referring to living men and women . . . unless the Uniform Commercial Code rule regarding "presumption" is applied!

The difference between legal "persons" and men (or women) is as significant as the difference between life and death!

legal "persons" can't walk  
legal "persons" can't talk  
legal "persons" have no gender  
legal "persons" have no race  
legal "persons" don't occupy space

In legal-land, "persons" aren't real - they are artificially created legal entities/corporations!

### **HIDDEN HISTORY: BIRTH OF THE "PERSON"**

When the UNITED STATES went bankrupt in the 1930s because of the banksters orchestrated Great Depression, "federal" government representatives pledged (hypothecated) the properties of the American people to the international central banksters as sureties for the debt.

From the Congressional Record of 3-17-93 submitted by Rep. James Traficant: [3]

*"In 1933, the federal United States hypothecated all of the present and future properties, assets and labor of their "subjects," the 14th Amendment U.S. citizen, to the Federal Reserve System";*

hypothecate: means to *pledge to a creditor as security without delivering, as property.*

<http://www.thefreedictionary.com/hypothecate>

While many researchers have demonstrated that the Federal citizen (versus state citizen) was created with the passage of the 14th Amendment, it wasn't until Birth Certificates became required that the system in place today was perfected.

President Franklin Delano Roosevelt (FDR) was put in office in 1933 to administer a new system of government/economics. It was called The New Deal and sold both to Congress and the American people as an emergency solution to a national economic nightmare, the great depression. The national state of emergency declared at the time - giving

the office of the President unconstitutional authority - has been maintained ever since.[4]

Also in 1933 The people's gold was confiscated and they were given a new currency to use called the FEDERAL RESERVE NOTE, the scrip of the privately owned central bank, the FEDERAL RESERVE. The creation of the US Dollar/FEDERAL RESERVE NOTE actually brought in the Rothschild's New World Order and it has been displayed on the one dollar bill since 1935 for all to see:

The motto inscribed beneath the pyramid in the Great Seal of America is "Novus Ordo Seclorum" which is Latin for "New Order of the Ages", and synonymous with the "New World Order". We need to remind ourselves that the FEDERAL RESERVE NOTE (the US Dollar) is the currency of the private Federal Reserve banking cartel . . . not the currency of a sovereign nation.

The hypothecated population had to be tracked and taxed, so UNITED STATES citizens were encouraged to sign up for federal Social Insurance aka Social Security. The Social Security Act - part of FDR's New Deal - was passed in 1935.

## **THE BIRTH CERTIFICATE**

Once the Social Security Act was passed, the Birth Certificate tracking system was instituted and mothers were asked to sign a Certificate of Live Birth as soon as they named their newborn infants. Unbeknownst to the baby's parents, this certificate creates a brand new fictitious "person" that is recorded, and tracked through their Social Security number from then on. The legal "person" is named JOHN DOE (in all caps) to coincide with the baby's family-given name, John Doe. (Note: today it is almost impossible to work or open a bank account without presenting a Social Security number. Social Security numbers have been

automatically assigned to each Birth Certificate issued since the late 1980s.) [5]

President Woodrow Wilson's private papers exposed this admission of Colonel Edward Mandell House:

*“Very soon, every American will be required to register their biological property in a National system designed to keep track of the people and that will operate under the ancient system of pledging.*

*"By such methodology, we can compel people to submit to our agenda, which will affect our security as a charge back for our fiat paper currency. Every American will be forced to register or suffer not being able to work and earn a living.*

*"They will be our Chattel and we will hold the security interest over them forever, by operation of the law merchant [6] under the scheme of secured transactions. Americans, by unknowingly or unwittingly delivering the bills of lading to us will be rendered bankrupt and insolvent, forever to remain economic slaves through taxation, secured by their pledges."*

This has all been done by subterfuge via the complicit, perhaps unaware, BAR Association's army of attorneys. This scam is - and always has been - a fraud against all Americans.

## **UNIFORM COMMERCIAL CODE**

It is important to understand that the Uniform Commercial Code (UCC) - applies to all commercial transactions in America. In the 50s and 60s the UCC was installed by all of the states to make all statutes and commercial contracts more uniform.[7]

Quote from UCC GENERAL PROVISIONS § 1-103:  
*"The Uniform Commercial Code must be liberally construed and applied . . . to make uniform the law among the various jurisdictions."*

Some call this legal system statutory law; some call it law merchant; and others refer to it simply as contract law. New laws and/or policies are

deceptively presented to us as Constitutional - under the Commerce Clause of the U.S. Constitution. From Wikipedia: [8]

*"The **Commerce Clause** describes an enumerated power listed in the United States Constitution (Article I, Section 8, Clause 3). The clause states that the United States Congress shall have power "To regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes."*

***Commerce** is a term which means all the activities which start from production and end at consumption. The system includes legal, economic, political, social, cultural and technological systems that are in operation in any country or internationally.*

[9]

*"Dispute exists within the courts as to the range of powers granted to Congress by the Commerce Clause. As noted below, the clause is often paired with the Necessary and Proper Clause, [10] the combination used to take a broad, expansive perspective of these powers.*

*"During the post-1937 era, the use of the Commerce Clause by Congress to authorize federal control of economic matters became effectively unlimited."*

The fact that the federal government corporation now controls commerce was exposed in 1973 in Senate Report 93-949. On page 2, this report states that during a national state of emergency - which the report admits has been ongoing since 1933 - the following powers are assumed:

*This vast range of powers, taken together, confer enough authority to rule the country without reference to normal Constitutional processes.*

*Under the powers delegated by these statutes, the President [or his agencies] may: seize property; organize and control the means of production; seize commodities; assign military forces abroad; institute martial law; seize and control all transportation and communication; regulate the operation of*

*private enterprise; restrict travel; and, in a plethora of particular ways, control the lives of all American citizens.*

This was done, without the knowledge or consent of the American people who still believe the US Constitution is the law of the land. The reality is that they have been tricked into becoming tax and code slaves by the Rothschild international banking cartel and its BAR, which in the United States is known as the American BAR Association.

This nefarious system stays in place due to the "presumption" that we are all volunteering to be dead legal "persons". According to UCC General Provisions Section 1-206 [11], presumptions remain valid unless evidence is provided to the contrary.

Black's Law Dictionary, Sixth Edition, defines "presumption" as follows:

*A presumption is a rule of law, statutory or judicial, by which finding of a basic fact gives rise to existence of presumed fact, until presumption is rebutted. A legal device which operates in the absence of other proof to require that certain inferences be drawn from the available evidence.*

## **NOTICE OF CONDITION PRECEDENT [12]**

The first step to rebutting the presumption that we have volunteered to be a legal "person" tax and code slave is to recognize that President Bill Clinton presented us with an opt-out in his Executive Order 13132 in 1999:

Federalism

Section 2 *Fundamental Federalism Principles* (d)

“(d) The people of the States are free, subject only to restrictions in the Constitution itself or in constitutionally authorized Acts of Congress, to define the moral, political, and legal character of their lives.”

Unless we define our political characters as non UNITED STATES corporation [13] "citizens" and our legal characters as living men and women, government entities will continue to obligate us to all of the thousands of onerous, inane, and many times undisclosed codes and statutes passed by federal, state and local corporate governments.

There are three easy steps involved in defining your political and legal characters:

1. Stop being a US corporation CITIZEN and voting for the government corporation's trustees who don't work for you anyway – cancel your voter's registration. [14]
2. Implement a Notice of Condition Precedent and declare yourself a living flesh and blood man or woman (versus a dead legal "person").
3. Reserve your rights by always signing "Without Prejudice" UCC 1-308" above your signature [15]

Black's Law 4th Edition – condition precedent:

*" . . . it is a condition referring to a future event, upon the happening of which the obligation becomes no longer binding upon the other party, if he chooses to avail himself of the condition."*

In other words, once you implement a legal notice establishing your political and legal characters and sign your applications, registrations and contracts "without prejudice", you can challenge the enforcement of onerous terms or conditions that either were not disclosed or were agreed to under duress. Essentially you are saying, "I reserve my right not to be compelled to perform under any contract or commercial agreement that I did not enter knowingly, voluntarily and intentionally." This notice could also be your only protection from unknown or misrepresented terms and conditions related to electronic agreements that are meant to be enforced by the authorization of your electronic (digital) signature alone.

Part 2.  
General Definitions and

§ 1-202. Notice; Knowledge.

The Notice of Condition Precedent was designed to define both legal and political characters for the record using as few words as possible.

## Important for parents

The Notice of Condition Precedent also offers the option for mothers and fathers of underage children to rebut the presumption that their son(s) or daughter(s) are under the [Parens Patriae doctrine](#) - that is the presumption of parental authority of the State, that was put in place when the baby's mother signed the Certificate of Live Birth. [16]

Parens patriae definition from legal-dictionary.thefreedictionary.com:

*In the United States, the parens patriae doctrine has had its greatest application in the treatment of children, mentally ill persons, and other individuals who are legally incompetent to manage their affairs. The state is the supreme guardian of all children **within its jurisdiction**, and state courts have the inherent power to intervene to protect the best interests of children whose welfare is jeopardized by controversies between parents. This inherent power is generally supplemented by legislative acts that define the scope of child protection in a state.*

## Publishing

Option A) Have your notice placed in the legal notice section of your local paper for four weekends. Ask the paper to send you a notice after it has been filed with the court. If the paper does not file it, you must get proof of the notice from them and file it on the public record yourself. Use the four line address request in your notice as it takes you out of the jurisdiction of the UNITED STATES federal corporation. [17]

Option B) Post your Notice of Condition Precedent on the Condition Precedent web site for a \$25 donation. To view the Condition Precedent, web site put [conditionprecedent.com](http://conditionprecedent.com) in your search engine:

<https://conditionprecedent.com/>

Instructions are on the **Post a Notice** page.

If you chose to have your Notice of Condition Precedent publicly posted on this site, the host will mail your notice to you directly after it has cured (been posted for 30 days), thus providing you with the documentation needed to start implementing it. It can be used to counter the presumption that you have agreed to the myriad of unintelligible

terms and conditions including those associated with web sites or downloadable software or applications. Keep the original and send out copies as needed. Get and keep copies and reference numbers for all notices sent out.

### **Without prejudice**

Don't forget to write "Without prejudice" above your signature each and every time you are called upon to sign anything . . . starting right now.

If an occasion arises whereas those seeking your signature deny you the right to clarify your acceptance via signing "without prejudice" above your signature, remind them that they are obligated under the UCC rules of contracts and agreements Section 1-308 to permit this reservation of rights. Be polite but persistent. You can even add if necessary that per [UCC § 1-305, "Remedies \[such as reservation of rights\] are to be Liberally Administered"](#).

## **THE NOTICE: (274 words)**

---

### **NOTICE OF 'CONDITION PRECEDENT'**

In compliance with Executive Order 13132 ("Federalism") signed by President Bill Clinton on August 10, 1999 Section 2:

"(d) The people of the States are free, subject only to restrictions in the Constitution itself or in constitutionally authorized Acts of Congress, to define the moral, political, and legal character of their lives."

I hereby define my political and legal characters as follows:

Be it known by all that I John Doe, as a living flesh and blood man, that on this [posted date] do hereby give notice to all in the world that I am not a citizen of the United States Federal corporation. [See 28 U. S. Code § 3002] Any who wish to challenge this admission must do so by responding to this notice within 30 days of the last post date.

Notice is also given to any one in the world who may have a contract or agreement under the above name, living at the below address, that this notice serves as an addendum to all contracts or presumed contracts ab initio, in which the signatory name (or electronic signature) may appear. Notice that the following be included as part and above the signatory name: "without prejudice."

Let it be known to all that this notice also serves to amend my son's Certificate of Live Birth and rebut any presumption that the State has parental authority (parens patriae doctrine) over Jimmy John Doe (date of birth: 5/7/08).

All responses to be addressed as follows. Note that all three line addresses will be returned to senders:

John Doe  
307 John's Road  
Akron, Ohio [12345]  
united States of America

## CONCLUSION

Unless people wake up to the current ongoing embedded word game and rebut the presumption that they are volunteering to be code and tax slaves for the government corporation called the UNITED STATES, things will only get worse for them as more and more rules, restrictions, penalties, fines and fees are piled onto nearly every activity they are engaged in. What we were taught was a Constitutional government has become a wildly profitable corporate enterprise running under the Law Merchant or the Uniform Commercial Code. This was all done by stealth and it was all done at the people's expense by the international central banking cartel and their army of BAR attorneys. The American BAR Association was not founded to benefit the American people!
